However, my country is very beautiful and it has different weathers at one time, it's very landscape in spring. I totally suggest, it's better if you come at first of April. At that time, the weather will be very nice and suitable to travel all around my county. In addition, lots of our historical places are located in the middle of the deserts; therefore in other seasons it's difficult for you to have trips to those places. You can have a plan to go to Shiraz to visit some ancient huge palaces for of our history. There are some famous our poetries - some of our famous peots such as Hafez and Saadi, and also you can go to Isfahan where has wonderful religion places and beautiful carpets that you buy from its bazaar exist.

I look forward to your answer and then I and my family can plan for a travel with you together, because we like to visit those places again.

Cheers,

Kamal,

In my opinion, Advertisement is major factor in commercial commerce; therefore, most of companies try to dedicate a part of their earning for this issue. In fact, people can choose to spend time for advertisement or not. On the other hand, media publicity gets that choice from people. They know about new objects however, they do not spend time for visiting them.

On the other hand, people cannot have a chance to choose. They have to listen or read to some publicity. At least they must spend time to remove those messages or reject calls, therefore they lost lose their time. Different companies bombard people with their messages and it harms human privacy.

Furthermore, in that case, because most of people omit these messages, companies have to spend lots of money for product in order to produce a an interesting psychological message with most
